AVAILABILITY

Remote, open to on-site in Copenhagen

About 5 hours a day (~100 h/month)

Time zone: Paris, CET/CEST (UTC+1 in winter, UTC+2 in summer), same as Copenhagen

SKILLS

Bedrock Script API

TypeScript / JavaScript (ES modules)

Molang, animation controllers, entity component system

Modular, event-driven architecture

Performance-aware, tick-optimised scripting

Clean, documented, maintainable code

Git version control & code review

Python, Java, C, Linux

EDUCATION

Engineering degree, Computer Science
Polytech Nice-Sophia, Université Côte d'Azur
2023-2028

French Baccalauréat
Maths & Computer Science, with honours
2023

Adam Loubaris

Minecraft Bedrock Add-On Developer

Developer of add-ons and gameplay systems for the official Minecraft Marketplace, working with 10+ partner studios. I write clean, modular TypeScript on the Bedrock Script API, with an event-driven architecture and performance-aware code that stays easy to maintain and hand over. Engineering student in computer science and cybersecurity apprentice at SAP Labs France, used to delivering reliable work remotely and on deadline.

EXPERIENCE

Freelance Minecraft Bedrock Developer — Remote

Minecraft Marketplace

- Built 10+ add-ons and contributed to 30+ maps released on the official Marketplace.
- Clients include Monster Egg Studios, Eescal Studios, Kubo Studios, 4KS Studios and Nitric Concepts.
- Scripted spell and ability systems, combat classes, pets, custom weapons, bosses and camera tools.

Cybersecurity Apprentice — Current

SAP Labs France

Work-study position alongside my engineering degree.

Capture The Flag Competitions — Hack The Box

Ranked in the top 800 players worldwide in ethical-hacking challenges.

SELECTED MARKETPLACE TITLES

Title	Studio	Type	Rating
Overpowered Weapons	4KS Studios	Map	4.5 (29,000+)
Spellbook	Monster Egg Studios	Add-on	4.3 (1,500+)
Lucky Block Factory	Kubo Studios	Map	4.5 (500+)
TNT City	Kubo Studios	Map	4.1 (500+)
Ring Pets	Eescal Studios	Add-on	4.0 (400+)
Combat Classes	Monster Egg Studios	Add-on	5.0
CinemaCraft	Monster Egg Studios	Add-on	3.6

PERSONAL PROJECTS

Ghost Framework (Python): co-developed an Android security-testing framework, 2.8k GitHub stars.

Autopilot-OpenCV (Python): real-time detection of vehicles and road signs.
